PROFESSIONAL PROFILE

Mechanical engineer with 16+ years across design, industrial production and EPC/infrastructure projects. Founder and project director of Saman Monavar Ostovar (established in 2015), with experience across water and wastewater treatment, hydraulic infrastructure, tenders, cost estimating, procurement, contract administration, site coordination and project handover. Career portfolio records 15+ project assignments, including joint deliveries with specialist contractors. Experienced in translating complex requirements into practical execution plans and accountable project documentation.

EXPERIENCE & LEADERSHIP

Saman Monavar Ostovar — Founder & Project Director | 2015 onward

- Directed engineering contracting and client coordination for water/wastewater and industrial infrastructure projects, with a core operational team and project-specific personnel.
- Managed tender reviews, scope definition, technical documents, bill of quantities, cost breakdowns, pricing and bid submissions for public-sector and industrial clients.
- Coordinated design reviews, technical consultants, subcontractors, procurement, schedules, construction follow-up, progress reporting and handover.
- Engaged with utilities, municipal clients, industrial estates, suppliers and multidisciplinary delivery teams.

Arman Tadbir Palayesh / Kimiab Kavir / Shahr Ab — Engineering Project, Design & Tender Coordination | Earlier roles

- Supported technical proposals and water-treatment projects, including mechanical/piping documentation, RO systems, industrial effluent treatment, plant models and commissioning coordination.
- Prepared and reviewed technical drawings, equipment scope, tender requirements, cost inputs and site/office coordination across collaborating firms.

Industrial Production & Mechanical Design — Design and production positions | 2006–2015

- Mechanical part and equipment design; manufacturing and assembly drawings; production planning, technical operations and shop-floor coordination.

SELECTED WATER & WASTEWATER PROJECTS — DOCUMENTED EXPERIENCE

- Salehi Food Industries (Hamedan): industrial WWTP, ABR + extended aeration; design, construction and commissioning with Arman Tadbir Palayesh.
- Aria Hospital (Rasht): RO hospital water-treatment system; design, construction and commissioning with partner contractor.
- Birjand Industrial Slaughterhouse: industrial wastewater treatment using ABR + extended aeration; collaboration with Arman Tadbir.
- MAPNA / Asaluyeh: 20 m^3/h reverse-osmosis package; mechanical design and 3D modeling with Kimiab Kavir.
- Kimiab Kavir / Tehran and Shahr Ab Shargh / Tehran: 10 m^3/day and 10 m^3/h RO package design and modeling.
- Bank Sepah headquarters / Tehran: wastewater treatment rehabilitation and upgrade (extended aeration) with Arman Tadbir.
- Chashte Pasand dairy / Qazvin: industrial wastewater treatment rehabilitation; ABR + extended aeration.

• Yazd WWTP Phase 2: treatment-plant modeling with partner firms; two-stage ABR + extended aeration.

• Razi Vaccine & Serum Research Institute: activated-sludge/SBR treatment package supply.

• Bandar Imam Khomeini Slaughterhouse: two-stage ABR + extended aeration; design, construction and implementation.

• Sarabi Dam / Tuyserkan: surface-water package covering mixing, coagulation and sedimentation; design, manufacture and installation.

OTHER INFRASTRUCTURE PROJECT MANAGEMENT

• Alborz Libraries rehabilitation — project manager, building refurbishment.

• Mostafa Khomeini Industrial Estate — project manager, road/asphalt rehabilitation.

• Tonekabon Industrial Estate — project manager, bridge foundation rehabilitation.

• Arak water transmission and pumping station — project manager, utility infrastructure.

CORE CAPABILITIES & SOFTWARE

• EPC tendering, RFP/technical evaluation, quantity takeoff, detailed cost estimates, BOQs, procurement, progress statements, schedules and contract control.

• Mechanical design, RO and treatment equipment, piping/pumps/pressure vessels, plant layout and multidisciplinary coordination.

• Advanced Excel; Microsoft Project; AutoCAD, SolidWorks and CATIA; applied process diagrams and structured project reporting.

• Documented team/client leadership; subcontractor and supplier coordination; technical reporting, site mobilization, QA/HSE awareness, testing and handover.

EDUCATION & LANGUAGES

BSc, Mechanical Engineering (Solid Design), Islamic Azad University, Qazvin (2009). Associate Degree, Machine Tools, University of Applied Science and Technology, Qazvin (2006).

Persian: native | English: conversational | Turkish: learning | German: beginner

Selected projects were delivered with partner firms where noted. The portfolio distinguishes project management from mechanical design/modeling, supply and collaborative delivery.
